

TRUE1® Trelco™

Molded Power Distribution Three-fer

Catalog Number:
4123JEG-TRUE1

Description:

The EverGrip® TRUE1 Trelco™ design features (1) inlet and (3) outlet Neutrik® powerCON® TRUE1 TOP connections in a fully enclosed molded housing.

Typical Application:

Trelco™ allows the interconnection of equipment that utilizes powerCON® TRUE1® wiring devices such as intelligent lighting fixtures, portable speakers and video walls.

Where Used:

Live Event, Motion Picture, Touring, Concert, TV/Film Production, Convention Centers, Rentals

The TRUE1® Trelco offers power distribution flexibility in the industry's most compact device

Features & Benefits

- Allows the splitting of a single power source into three outlets
- Offers rugged molded construction that won't deteriorate over the service life of the device
- Utilizes premium quality Neutrik® powerCON® TRUE1 TOP Connectors
- Creates a permanent bond between conductors and connectors through rugged, one-piece thermoplastic molding
- Connectors are IP65 Rated for dust and water protection
- Matching curved footprints on top and underside permit stacking on trussing, battens or each other
- Secure to trussing or battens via tie-wrap positions on front and rear
- Available with small 3-digit logo for volume production runs on request
